

IRRIGATION *Group*

CAPABILITY STATEMENT

COMPANY OVERVIEW

Irrigation Group has quickly built a strong reputation in south-east Queensland for their fresh approach, lofty standards and consistent high quality.

Attention to detail and a genuine commitment to customer service ensures that the energetic, fully qualified team at Irrigation Group completes the job right first time, every time.

Our tradesmanship and high-end materials equate to reliability and durability. We provide customised solutions from start to finish with clear, professional and courteous communication throughout. Whether the project be big or small, Irrigation Group can advise, design, supply, install, maintain, service and repair.

We deliver a range of irrigation needs, including pump and storage solutions plus cost-effective, water-saving sprinkler systems. Our dedicated and hard-working crew prides itself on exceeding customer expectations.

Customer satisfaction is not just a phrase for us. We are committed to doing the job neatly and efficiently the first time, leading to cost-effective, time-saving and water-saving results.

OUR PURPOSE

Irrigation Group brings an energetic, ambitious and hard-working approach to the industry. A small team enables us to remain fully invested in every project.

When you connect with Irrigation Group, you tap into a skillset and mindset that stands out from the crowd.

We believe communication, accountability and reliability are just as important as materials and labour. Transparency is assured through up-front, fair pricing, meaning no hidden surprises. We take time to listen to clients, advising and adapting as needed.

We have built loyal partnerships with trusted suppliers and add value through our unrivalled customer service.

OUR SERVICES

Irrigation Group delivers top-shelf, end-to-end services across the spectrum of water works, whether it be pump installations and repairs, storage needs, sprinkler systems (surface and subsurface), lighting or mulching.

Having established a strong track record of excellence in residential services, we are quickly expanding into the wider commercial and industrial sectors, bringing the same attention to detail and insistence on quality to large infrastructure projects.

Our customised solutions lead to efficient, cost-effective and reliable outcomes that consistently exceed expectations.

We may be a fresh face on the irrigation block but we are backed by 10 years of combined industry experience across a range of specialty areas including project management, plumbing, landscaping, roofing and estimating.

Using only the best materials extends the life cycle of our irrigation work and reduces the need for ongoing maintenance and repairs.

IRRIGATION

We design customised solutions and set high standards for installation and maintenance to ensure ongoing efficient operation. Our automatic sprinkler systems cater to all scales of commercial and industrial works.

MACHINERY

We own and operate our own machinery, meaning our lofty standards of service begin right from the preparation stage of projects with the likes of earthworks, landscaping and trench work.

DESIGN

Consulting, advising and aligning with client needs is important to us. We meet you on-site before starting, and will design and deliver irrigation work that exceeds your expectations.

INDUSTRIES WE SERVE

Our commercial projects cater to a fast-growing catalogue of industries, ranging from sporting clubs, schools and government departments to property management, waterways and regional infrastructure.

- ✓ Education
- ✓ Commercial
- ✓ Government Departments
- ✓ Sporting Clubs
- ✓ Regional Infrastructure Waterways
- ✓ Property Management Councils
- ✓ Landscaping
- ✓ Agriculture

Whatever your industry, having reliable, cost-effective and water-efficient irrigation solutions is vital. With Irrigation Group, you can be assured our work is delivered at a consistently high standard.

ACCREDITATION AND EXPERTISE

Our experienced team is fully qualified and licenced, QBCC certified and combines business and project management expertise with professional plumbing and landscaping.

We are also design experts, who ensure our customised solutions align with each client's individual needs. We have quickly built a reputation across the commercial and residential sectors for our high work ethic and commitment to quality.

- ✓ Fully Qualified Trade Experts
- ✓ QBCC Certified
- ✓ Cert III Plumbing
- ✓ Cert IV Irrigation
- ✓ Design and Installation
- ✓ Sales and Customer Service

License Number: 15123130

Our end-to-end ethos includes owning and operating our own high-quality irrigation machinery, catering for landscaping, earthworks, trenches and other pre-installation needs.

OUR CLIENTS

Having established a diverse base of loyal, satisfied residential and commercial clients, Irrigation Group continues to broaden our horizons with larger projects across the likes of property management, construction and government departments.

Regardless of scale or complexity, our commitment to quality, reliability and customer service remains front and centre.

Our civil infrastructure and building clients include *Comdain Infrastructure, Gemlife, Graya, M2 Construct* and key players in landscaping such as *Skyline Landscapes* and *Grolife*. We have also established trusted partnerships with leading suppliers such as *Reece, Grundfos, Rainbird, Netafim, Davey* and *Hunter*.

Whatever your irrigation needs – from pumps, water storage, earthworks and water treatment to fertilising and soil tests – Irrigation Group can deliver cost-effective and highly efficient outcomes.
